

Houston Branch
FEDERAL RESERVE BANK OF DALLAS
1801 ALLEN PARKWAY
HOUSTON, TX 77019-2504

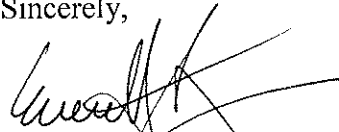

June 25, 2007

To Whom It May Concern:

CounterCraft provided design-build services that included design, equipment specifications, fabrication and contract administration for the cafeteria of the Houston Branch, Federal Reserve Bank of Dallas. Serving line modifications were made to increase the efficiency of traffic and maximize the use of existing space. During the project, the CounterCraft worked closely with Bank staff, its architect and Sodexo Marriott, as well as various other levels of Bank management. Through the course of the project, the staff at CounterCraft demonstrated a high degree of professionalism, organization and responsiveness to the concerns of the various parties involved in the project.

The Bank has been very satisfied with the quality of the serving line design and installation and has received favorable responses from a broad range of visitors. As a result, CounterCraft was successful in providing a cost-effective, aesthetically pleasing design that engages Bank visitors, meets their needs, and provides flexibility in the future.

Sincerely,

D. Everett Petzer, Jr.
Administrative Services Manager
